Smart and Productive Office Partners

Ever thought about the amount of office units you have and the space they take up? Just imagine the extra space if they could be combined into one compact system. Not to mention the time you would save by not having to go from one machine to the other! Ricoh can make it happen.

The Aficio™1015 and Aficio™1018 are the ideal all-in-one partners for your business, at an attractive price. You don't have to spend your budget on three separate machines, you can take advantage of the combined copier, printer and fax capabilities. Moreover you can now do virtually all of your office work from one place. Even sending faxes and controlling print outs from your desktop is not a problem. These office partners offer maximum performance with minimum space in a versatile, user-friendly and multifunctional machine. The low operational costs allow you to save money as well as space while your office gets ready for the future. So, why wait? Let the Aficio™1015/Aficio™1018 merge cost-effective and compact document management with your workplace and set the ball rolling for greater productivity!

The Compact Multifunctional Solution

Multifunctional in the true sense of the word, this modular solution gives you top benefits and saves valuable office space. Install the printer and/or fax module and you can take advantage of the copier's document handling facilities and save money at the same time.

Forget traditional office equipment once and for all: the Aficio™1015 and 1018 handle your work in the most economical and user-friendly way.

Compact Modularity

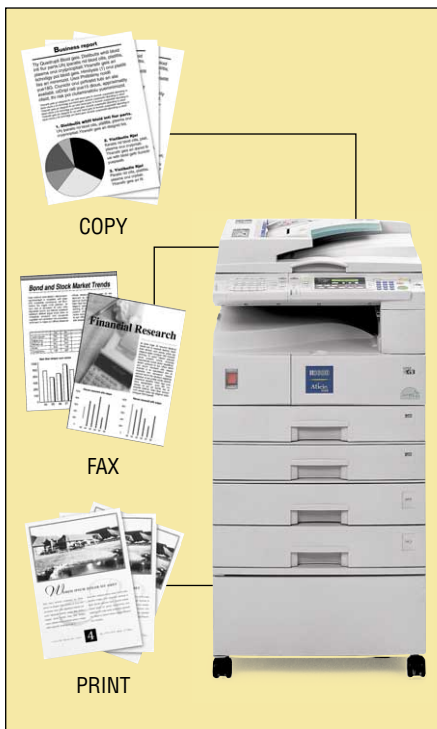

Imagine you just received a fax and need a copy for a colleague, while only a minute ago you printed a business report that needs to be copied and distributed. You find yourself running from the fax machine via the copier in the hall, to your own office's printer and back to the copier. Sounds too familiar right! What would you say to one multifunctional solution that combines all these functionalities? The Aficio™1015 and 1018 are all-in-one solutions that combine a powerful copier with a high-quality printer and fax. They are so neatly designed you can even place them on your desktop!

Cost-effective Associates

Naturally you are worried about your office's limited budget. Not a problem! Instead of investing in a separate copier, a fax machine and a printer, you can have them all in just one affordable machine. And you don't need to manage separate supplies for three devices: one set of consumable supplies enables additional savings on storage space and inventory cost. This is not all: these multifunctional systems hire separate toner and OPC, which enables cost-efficient maintenance and keeps cost per copy/print down. Add the Aficio™1015 or 1018 to your office equipment line-up and you have a very economical solution for your document management needs.

Convenient and User-friendly Co-workers

Whether your business is a travel agency, an accountants' firm or another type of office, time is extremely valuable. So why waste any on complicated and troublesome office equipment? Use the time previously spent on processing your documents to follow up on important issues. With the Aficio™1015 and Aficio™1018 it's just as easy to programme a copy job or print documents as to send a fax. Thanks to the segregated panel and easy software, operation is as simple as can be. Additionally, the straightforward design allows for user-friendly maintenance. The Aficio™1015 and 1018: total simplicity that pays off!

With the Aficio™1015/1018, it's just as easy to make copies or print documents as to send a fax.

The Digital Advantage

Wouldn't you like to do away with miscopies and obtain excellent copy quality all the time?

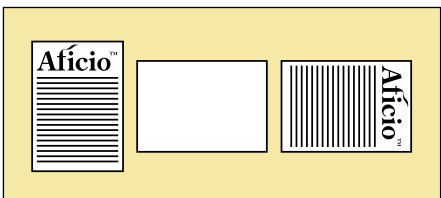

Ricoh Real Digital does it for you. But it does much more; your originals need to be scanned only once, sorting is done automatically and numerous extra features are available, thanks to clever digital technology. So it might be time to say goodbye to those conventional machines and opt for a digital solution. The Aficio™1018 operates at an extremely high level of performance and optimum copy quality is guaranteed from the first to the last set.

Thanks to digital technology, all output has the same high quality.

The Rotate Sorting function delivers your copies in easy-to-remove batches for trouble-free distribution.

Copying at its Best

The Aficio™1018 features 'Scan Once, Copy Many' technology (option for Aficio™1015). This allows you to immediately resume working on other pressing matters while the Aficio™1018 delivers high-quality copy output. This digital copier scans originals just once and stores them into memory, from where they are reproduced as often as you want. The quality remains the same throughout the whole job whether you are making 2 or 20 sets. The Aficio™1018 produces crisp and clear 600 dpi copies that look exactly like your originals. What's more, no matter what kind of paper you are printing on, the quality of print is always immaculate.

No generation copies

With the Aficio™1018, the risk of damage to your original from recirculative feeding is eliminated. You can now take away the original after one scan, while the copied sets keep coming. An additional benefit is the minimised risk of damaged originals. This will save you the time and cost of having to make master copies from your originals first. Of equal importance is the reduced wear and tear on the scanner.

No Miscopies

Miscopies: often a waste of both time and money. Yet, from now on, your office will run more efficiently than ever thanks to Auto Image Rotation. This handy feature virtually eliminates miscopies by rotating the image of an original to match the orientation of the paper in the tray. So no more trying to figure out which way to place the paper. A smooth-running office: it's yours with Ricoh's digital technology.

Easy Distribution

Your colleagues all need a set of the new company regulations. Thanks to the Aficio™1018, manual sorting now belongs to the past. No need for a separate sorter either: sorting is done electronically, facilitating easy handling. The Rotate Sorting function on the Aficio™1018 (option for Aficio™1015) delivers your copies in easy-to-remove batches for trouble-free distribution. Paper and filing space are saved thanks to the possibility to combine up to four originals on one copy. These features enhance your productivity and make the process of document management far more efficient.

Digital Now or in the Future

The Aficio™1018 is fully digital as a standard. But if you're currently looking for a slim model with upgrading possibilities, the Aficio™1015 is just what you need. This economical product is ready at any time to easily expand into the digital office environment. Perfect if your office is planning ahead and in a later stadium might want to become fully digital. When that time comes, you'll be able to upgrade this copier with a powerful printer and fax module, and enjoy all the benefits of real digital document handling.

To prevent miscopying due to incorrect placement of an original, the Auto Image Rotation function automatically rotates the image to match the orientation of the paper in the tray.

The Fast and Flexible Systems

Working smarter means working faster.

That's why your business environment needs a machine that is ready whenever you are. The Aficio™1015 and Aficio™1018 answer those high standards easily: unrivalled fast output especially for the most frequent copy jobs. Wasting precious time is out of the question: printing on virtually any paper size or thickness, outstanding paper capacity and a number of very useful features. Moreover, with the optional fax, these units provide all office efficiency you need.

The Aficio™1015 and 1018 will help your productivity reach new heights as they handle a wide range of paper types and sizes and offer an outstanding paper capacity.

Off to a Flying Start

Often you need just that one copy. Especially in that case you don't like waiting for your machine to warm up – you have plenty of other things to do. Not to worry, the Aficio™1015 and 1018 start copying in a mere 25 seconds. And your first copy is delivered in only 6.9 seconds! Faxing is also done in a flash: scanning in 2 seconds and transmission in 3. Books, A3 originals and magazines can be faxed directly from the platen glass without making copies first. No waiting times whatsoever: you'll be off to a flying start!

Seamless Network Integration

The Aficio™1015 and Aficio™1018 are easily turned into powerful network printers. This will prove to be very useful when you are at a colleague's desk but need a print out of one of your own files, for instance. With the Aficio™1015 and 1018 hooked up to the network you can print directly from any PC in the office. You can go even further with the SmartNetMonitor software. It allows you to monitor the status of any printing device* connected to the network from your desktop. You'll obtain complete control over your network printing activities.

*Aficio™ based devices

A3 Printing

You are now no longer limited to printing on A4-paper only. These compact machines accurately reproduce all types of documents up to A3-size so no need for an additional A3 printer! What about easy handling and distribution? Electronic Sorting takes care of it, delivering your output in convenient sets. Output quality is always accurate and superb, that goes without saying.

Versatile Features

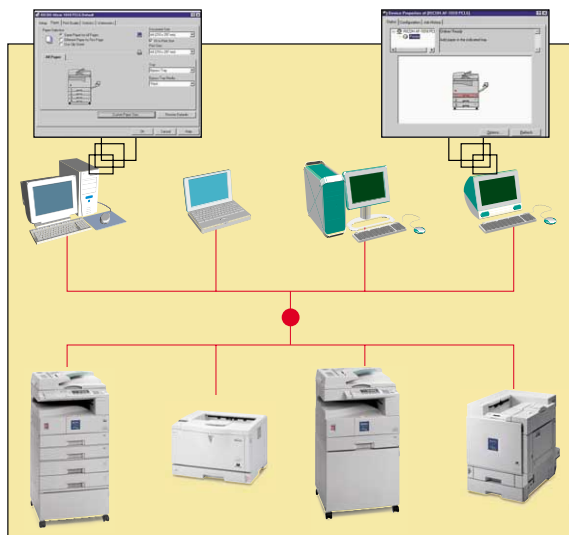

The Aficio™1015 and Aficio™1018 take a lot of time-consuming worries of your hands. The printer controller supports a number of very useful features such as Slip Sheet and Auto Continue. The first of these allows the insertion of a slip sheet after every page. And when an error such as a print overrun, a memory overflow or full memory occurs, there is no need to leave your desk: printing automatically resumes with Auto Continue.

Flexible Paper Handling

Faxing non-standard documents, printing on envelopes, copying magazines... your office environment has a lot of different original handling needs, no matter what business you're in. Type or thickness of paper are no problem for the Aficio™1015 and 1018 – they give optimal copy/print/fax results at all times.

Large Paper Supply

No need to refill your machine all the time either: the Aficio™1015 and 1018 come standard with one or two paper tray(s) for 250 sheets and a 100-sheets multi bypass tray. This can be boosted to an outstanding 1,350 and 1,600 pages. Your office productivity will soar!

You can now send your print jobs straight from your PC to the Aficio™1015/1018. With the included SmartNetMonitor™ software, you can monitor the status of network printers.

Aficio™ 1015/1018

Specifications

General

Configuration:	Desktop, stationary platen
Power Source:	220/240 V, 50/60 Hz
Power Consumption:	Less than 1.2 kW
Dimensions (W x D x H):	Aficio™1015/1018: 550 x 568 x 420/518 mm
Weight:	Aficio™1015/1018: 35 kg/42 kg or less
Paper Size/Weight:	Standard Tray: A5 – A3 / 60 – 90 g/m ² Bypass Tray: A6 – A3 / 52 – 162 g/m ²
Input Paper Capacity:	Aficio™1015/1018: Standard: 1 x 250 sheets/2 x 250 sheets Bypass: 100 sheets Max.: 1,350 sheets/1,600 sheets
Output Paper Capacity:	250 sheets

Copier

Copying Process:	Dry, dual-component, electrostatic transfer system
Scanning Method:	Flatbed with moving CCD array image sensor
Resolution:	600 dpi
Memory Capacity:	Standard: 16 MB (option for Aficio™1015) Option: 32 MB
Copy Speed:	15 cpm/18 cpm
Warm-up Time:	25 seconds
First Copy Speed:	6.9 seconds
Multiple Copying:	Up to 99
Image Density:	Automatic and manual
Zoom:	50% - 200% in 1% increments
Magnification Ratios:	Enlargement: 122, 141, 200% Reduction: 50, 71, 82, 93%

Printer

CPU:	Destiny ASIC D8401A 75 MHz (PowerPC 401 microprocessor embedded)
Continuous Print Speed:	Aficio™1015/1018: 15/18 pages/minute
Resolution:	PCL5e/PCL6: 600 dpi PS2: 300/600 dpi
Memory Capacity:	Standard: 16 MB Option: 32, 64 or 128 MB
Language:	PCL6/PCL5e, PostScript Level 2 Compatible (Option)
Printer Driver:	Windows® 95/98/Me Windows® NT4.0/2000 Mac 8.x/9.x
Fonts:	45 PCL fonts (35 Intellifonts + 10 TrueType Fonts) 80 PS fonts (only available with PS option)
Interface:	Standard: Parallel Port IEEE1284 (ECP) Option: Network Port Ethernet 10 base-T/100 base-TX
Network Protocol:	TCP/IP, IPX/SPX, AppleTalk (Auto Switching)

Fax

Circuit:	PSTN, PBX
Compatibility:	ITU-T (CCITT) G3
Resolution:	200 x 100 dpi, 200 x 200 dpi, 200 x 400 dpi 8 x 3.85 l/mm, 8 x 7.71 l/mm, 8 x 15.4 l/mm
Modem Speed:	Max. 33.6 Kbps
Transmission Speed:	G3: 3 sec. (ITU-T #. 1 Chart, 200 x 100 dpi)
Compression Method:	MH, MR, MMR
Scanning Speed:	Less than 1.2 seconds (200 x 200 dpi, L.E.F.) 36 A4 pages/minute
SAF Memory:	Standard: 2 MB
Page Memory:	4 MB
Memory Backup:	Yes

Paper Handling

ADF	
Original Size:	A5 - A3
Original Weight:	52 - 105 g/m ²
Original Capacity:	30 sheets
Other Options	
Paper Banks:	1 x 500 sheets 2 x 500 sheets
Paper Size:	A5 - A3
Paper Weight:	60 - 105 g/m ²
