

Scanner Solution Expander

Printer + Scanner = Complete Multifunctional Device

Customer demands change continuously and as a result, so do yours. Your office environment is in constant motion.

- You might already have a print solution but are now looking for a way to digitise paper documents.
- You have a black and white copier but might have the need for occasional colour copying.

As leader in the office automation segment, Ricoh has your precise needs in mind. Opt for one of our advanced scanner/printer combinations and you obtain the instrument to streamline your day to day business operations.

- The solution for your occasional copying needs – scan to print
- The ideal cost effective fax alternative – scan to e-mail
- The perfect archiving system – scan to folder
- The way to send files around the world – scan to FTP

Combine & Benefit

Ricoh's matching scanner/printer combinations:

- boost your workgroup & departmental productivity.
- easily satisfy the capture, distribution & processing needs of your busy office.
- are Ricoh manufactured & fully compatible.
- address all the needs of today's technology driven workplace.
- allow you to archive paper output & convert documents into digital files.
- facilitate archival in a number of efficient ways without the need for special drivers or software.

Occasional Copying with Scan to Print

You fully depend on your printer yet how do you handle the occasional copy need? Use Ricoh's scanner/printer combination to create immediate and affordable colour output via a connected local Ricoh laser printer or one of up to 99 compatible networked Ricoh laser printers. You save time and obtain an efficient colour printer/copier for the occasional production of full colour and black and white copies*.

* The continuous copy speed depends on the target printer.

Scan, Print, Copy & Benefit

Colour Prints Made Fast & Affordable

When it comes to printing, you need an advanced solution offering:

- high speed colour
- exceptional image quality
- a low Total Cost of Ownership (TCO)

As up to 3% of your business' turnover is spent on printing, the cost related aspect is paramount. Ricoh's print solutions provide maximum performance at minimum expense.

- amazing colour and B/W speeds
- supreme output quality
- ease of use
- simple maintenance
- high reliability
- optimum security

High Speed Colour Capable Network Scanning

The solution for a streamlined day to day workflow? **Digitising.**

Ricoh's scanner line up provides:

- hard copy digitisation & image conversion
- storage & document management

Stand alone or network attached, simply scan your documents and do away with the piles of paper and overflowing filing cabinets without the need for a computer!

Fast & Easy Distribution

To convert your office into an example of efficiency, Ricoh puts virtually any document distribution method at your disposal:

- **scan to print:** immediate & affordable colour output via existing Ricoh printers.
- **scan to e-mail:** send scanned files to any e-mail address in the world & use a web browser to manage the integrated e-mail address book.
- **scan to folder:** scan documents to a designated networked folder & distribute without extra server or software requirements.
- **scan to FTP:** conveniently share files by scanning to an FTP server in the LAN/WAN network and bypassing a mail server.

Optimum Security

To protect the interests of your work environment, all Ricoh's print and scan solutions come with advanced security features. You can:

- restrict unauthorised use: Windows®/LDAP authentication*
- guarantee confidentiality: document release after password entering.

* For supported Aficio™ models, please consult your local Ricoh supplier.
