Get more work done faster . . . and better.
With Document Centre 440/432/425.

Designed to be digital from the ground up, Document Centre 440/432/425 offers outstanding performance to smaller workgroups and offices. It gives you the features you need to improve productivity, and wraps them all up in a compact but powerful package.

Give your people the freedom to achieve with a system to match their capabilities.

From a digital copier to a fully configured multifunction system, Document Centre 440/432/425 uses intelligence to deliver unmatched productivity in its class, saves time and money, and frees your people to create more value for your company.

Document Centre 440/432/425 integrates paper and digital documents effortlessly, so you can share them quickly and easily around your office or around the world. Multifunctional and multitasking, Document Centre gets more work done because it can do more than one thing at a time, producing job after job with virtually no time in between. It's easy to install and maintain in your network environment. And you can consolidate single-function assets to save on supplies and maintenance costs.

With its SMart network controller, Document Centre 440/432/425 is so intelligent that it can manage input, output, and on-board queuing concurrently to minimize the load on your network and increase effective print speed. The result: cost-crunching productivity gains.

Document Centre grows with you and saves money, too.

An uncompromising design and ongoing enhancements deliver superior services: print, scan, e-mail, copy, fax. Its modular and upgradeable design means you can tailor a system to meet your current requirements, while laying the foundation for your future.

Network Printing

SMart Network Controller

Processor	• Intel® Celeron 300 MHz
Memory	• 64 MB RAM, uses system disk for virtual memory
System Disk	• 4.5 GB
Printer Languages	• Adobe PostScript 3
(auto switching)	• PCL 6 (PCL 5e)
	• TIFF
	• PDF

Printing via CentreWare

Resolution	• 600 x 600 dpi
CentreWare Services	• Macintosh Print Utility
	• Job Tracking Utility (Conductor)
Printing Features	• Secure print • Watermark
	• Delay print • Fit to new paper size
	• Sample set • Cover selection
	• Booklet creation • Transparency interleave
	• Paper selection by attribute • Multi-up
	• Banner sheet enable/disable

Print Protocols and Networks

Physical	• Ethernet 100BaseT/10BaseT, 10Base2, 10Base5 via adapter
	• IEEE 1284 Parallel (compatibility mode)
	• Token Ring (optional)

PRINT

SMart Network Controller
More processing power for faster system performance. Uses system disk for 128 MB virtual memory.

Page description language auto sensing and switching.

LCDS, SCS, XES, and IPDS through third-party transforms.

Printing via CentreWare
Easy-to-use Xerox CentreWare software lets users manage each step of the document cycle from the desktop.

Provides direct submission of TIFF and PDF files without the need to open the file, increasing productivity.

Highest quality image output—text, photo, or mixed. Or superior image grayscale.

Print Protocols and Networks
Compatible with all commonly used networks and the most commonly used operating systems. Seamlessly integrate Document Centre into your network environment.
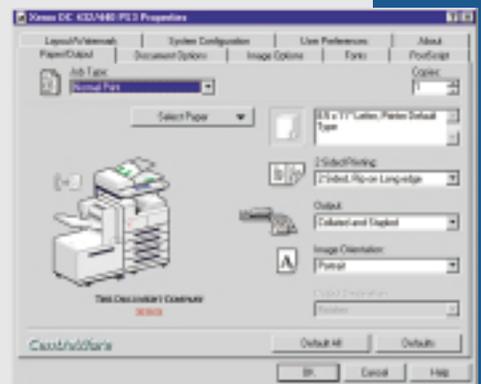

Print Processing
Concurrently receives, RIPs, and prints jobs. RIPs once, prints many in 1-N order.

Print Features
Hold up printing confidential documents until you release them.

Schedule off-hour printing of large documents for maximum machine usage.

Proof complex jobs before committing to a full run.

Create signature booklets with a watermark, automatically.

Print at the Document Centre from a floppy disk for convenience or at times when the network is down.

For the complete list of print driver support, visit www.xerox.com.

PRINT

CentreWare Internet Services
Submit and monitor print jobs
and machine status from
anywhere—from your intranet
to the World Wide Web.

CentreWare Internet Services

Device Status	• Web server embedded on SMart network controller
	• Tray status/contents
	• Consumable status
Print Queue Viewing	• Personal job print queue management—hold, release, and delete
	• Promote, release, and delete
Job Submission	• Print-ready files
	• Output feature selection
Device Administration	• Device install, site settables, configuration options, and remote reset
Browsers (verified)	• Windows 2000/NT 4.0/Me/98/95: Netscape Navigator 4.0/4.5/4.6/4.7, Microsoft Internet Explorer 4.x/5.x
	• Macintosh 8.6/9.0: Netscape Navigator 4.0/4.5/4.6/4.7
	• Solaris 2.5/2.6/2.7 (SunOS 5.5/5.6/5.7): Netscape Navigator 4.6/4.7, Microsoft Internet Explorer 4.x/5.x
	• Solaris 8 (SunOS 5.8): Netscape Navigator 4.0/4.5/4.6/4.7, Microsoft Internet Explorer 5.x

SCAN

Network Scanning (optional)
Seamlessly bridges the gap
between paper and digital with a
true, multifunctional architecture.
Scan directly to the network via
the embedded SMart controller.

Experience scanning technology
that's faster, more precise, and as
easy as copying.

Transform paper originals into live,
editable documents via a simple
drag-and-drop interface.

Scan to applications such as
DocuShare, Lotus Notes/
Domino.doc, FlowPort,
Documentum, and many others.

Scan to file servers with up to six
user-defined metadata fields.

Network Scanning (optional)

Concurrency	• Scan while the system is printing copy or network print jobs, or while it is transferring scan-to-network or fax jobs
Resolutions	• 600 x 600 dpi
	• 400 x 400 dpi
	• 300 x 300 dpi
	• 200 x 200 dpi
	• 100 x 200 dpi
Maximum Scan Area	• 11 x 17"/279 x 432mm
Secure Access	• Device login with network user name and password
	• Supports Kerberos (Windows/UNIX), SMB (Windows/NT 4.0), NDS (Novell NetWare)
Network Protocol	• Novell (NCP via IPX/SPX)
	• FTP via TCP/IP
File Formats	• Single- or multiple-page TIFF 6.0 with G4/MMR compression
	• PDF (image only)
Scan Destinations	• Scan to network server
	• Scan to e-mail via CentreWare Scanning Services using MAPI-32 bit compliant e-mail client
	• Scan to application (workflow, EDMS)
	• Scan to Microsoft Exchange Public Folders
	• Scan to PC Desktop™
	- CentreWare Network Scanning
	- ScanSoft PaperPort
	- ScanSoft TextBridge
	- Document Centre Image Retriever

E-MAIL

E-mail Features (optional)
Directly send hard-copy originals
to any e-mail address, across
corporate intranets or anywhere
in the world over the Internet.

Distribute documents quickly,
reliably, and securely using your
existing network.

Broadcast to distribution lists in
one simultaneous operation.

Secure access capability requires
network user ID and password for
authentication.

E-mail (optional)

Capability	• Direct e-mail from the device
Resolutions	• 600 x 600 dpi
	• 400 x 400 dpi
	• 300 x 300 dpi
	• 200 x 200 dpi
	• 100 x 200 dpi
Maximum Scan Area	• 11 x 17"/279 x 432mm
Network Protocol	• SMTP, MIME encoded
Authentication	• Optional secure device login with network user name and password
	• Kerberos (Windows/UNIX)
	• SMB (Windows)
	• NDS IPX/SPX (Novell NetWare)
	• Optional PIN-based guest login
Directory Access	• Corporate address list via LDAPv3
	• Downloaded address list (comma-separated file format)
File Formats	• Single- or multiple-page TIFF 6.0 with G4/MMR compression
	• PDF (image only)

Specifications

Copying

Sides (input:output)	• 1:1, 1:2, 2:2, and 2:1
Quantity	• 1 to 999
Resolution	• 600 x 600 dpi x 8 bit
Digital Imaging	• Original type selection (text, auto, photo)
	• Auto rotation (90° or 270° when needed)

	• AutoIQ®	• Image shift
	• Edge erase	• Auto centering
	• Screening	• Lighter/Darker
	• Background suppression	• Contrast
	• Sharpness	

Copy Pre-collation Memory	• Dedicated 2.1 GB disk storage
Reduction/Enlargement	• Variable zoom from 25% to 400% in 1% increments
	• Anamorphic zoom
	• Six customer-programmable percentages
Special Features	• Auto paper select
	• Auto reduction/enlargement to fit selected paper size
	• Auto registration
	• Auto tray switching
	• Automatic job recovery
	• Booklet creation
	• Multi-up—4 to 1 maximum for 8.5 x 11"/216 x 279mm
	• Transparency dividers (blank or printed)
	• Annotation (position, start on page N, large/small fonts)
	• Covers insertion (front and back, blank or printed)
	• Build Job
	• Store and recall job programming
	• Job interrupt
	• Bound document copying
	• Sample set
	• Mixed-size originals
Foreign Device Interface (optional)	• Standard interface to third-party access control devices
RS-232 Port (optional)	• PC interface for upload/download of internal auditron data

Embedded Fax (optional)

Compatibility	• ITU (CCITT) Group 3 quality/resolution of 400 x 400, 300 x 300, 200 x 400, 200 x 200, 200 x 100 dpi
Speed/Modem	• V.34 modem: 33,600 bps. Less than 4 seconds per page transmission time. ISDN via third-party adapter
Speed/Compression	• MMR, MR, MH
Fax Send Features	• Auto fax transmission reduction
	• Page-by-page job status at the machine

	• Fax from platen	• Automatic cover sheets
	• Delay start	• Priority send
	• Automatic memory resend	• Broadcast

Fax Receive Features	• One-sided cover sheet with two-sided fax
	• Choices of paper and finishing options same as network fax
	• Reduction at reception to fit available paper
	• Junk fax prevention

Fax Reports	• Activity report	• Transmission confirmation
	• Broadcasting	• Pending fax
	• Dial directory	

Fax Receive Mailboxes	• Up to 200 password-protected mailboxes
Auto Dialing	• 10 group send allowing up to 20 recipients per group

	• Total of 200 speed dials	• Batch send
	• Auto redial	

Network (LAN) Faxing	• Fax phonebook for individuals and groups
	• Cover page with sender and recipient information
	• Resolutions of 400 x 400, 200 x 200, or 200 x 100 dpi

	• Confirmation report	• Force 4,800 bps speed

Network Fax Server Integration (optional on ST)

Document Scanner	• Duplex Digital Document Scanner with 50-sheet capacity
Secure Access	• Optional user login and password
Fax Send Features	• One- or two-sided scanning • Phone number entry
	• Add to send list (50 numbers maximum)
	• Delay send (specific time)
	• Resolution selection (fine, standard)
	• Image quality selection (normal, text, halftone, photo, background suppression, 7 levels of contrast, 7 levels of sharpness)

Fax Print Features	• One- or two-sided printing	• Number of copies
	• Staple on/off	• Collate on/off
	• Secure print on/off	
	• Finisher output tray selection (top tray or main tray)	

Supported Network Fax Vendors	• Captaris RightFAX, Omtool, Biscom, and SpectraFAX (others pending Xerox certification)

COPY

Copy Features
"Trayless" duplex means no limit to the number of two-sided output pages.

Scan once, print many saves wear on originals and produces multiple copies at rated speeds.

Xerox-patented AutoIQ® (automatic image quality) optimizes capture of mixed text, graphics, and photos.

Shift images up to 2.0" (50mm) in 0.05" (1mm) increments, and erase top, bottom, left, and right margins up to 2.0" (50mm) in 0.05" (1mm) increments.

Anamorphic zoom adjusts vertical and horizontal reduction/enlargement separately to fit copy pages.

Factory pre-set reduction/enlargement at 200%, 154%, 129%, 78%, 64%, and 25%, plus 100%.

Create signature booklets automatically.

Build Job feature enables special programming for different pages in one document.

Scans mixed-size originals.

FAX

Embedded Fax (1 or 2 lines) (optional)
Convenient embedded fax enables faxing from a stand-alone Document Centre.

Fax at machine-rated speeds, up to 50 sheets at a time.

Fax concurrently while copying or printing; with two phone lines, send and receive concurrently.

Secure Fax Receive prevents printing until authorized release.

Send or receive one- or two-sided faxes (up to ledger/11 x 17"/ 279 x 432mm), and print them on special paper, stapled. Use the secure feature for faxes that are for your eyes only.

Network Fax Server Integration (optional)
Provides hard-copy capture for fax (with custom user interface for walkup programming) and hard-copy output of fax when integrated with a Xerox certified network fax server.

DEVICE MANAGEMENT

Administrative Tools
Xerox has gone to great lengths to simplify the tasks of the network administrator who installs and manages Document Centre products. A variety of applications, tools, and snap-ins is available for each connected model. You can use tools developed by Xerox especially for Document Centre or, if preferred, you can use a number of industry-standard device management tools alone or in combination with Xerox software.

Xerox CentreWare Admin Services
A suite of Xerox-developed software tools designed to ease network installation, configuration, and administration is provided with every connected Document Centre. Designed to run on Windows 95, 98, Me, NT, and 2000 clients, CentreWare includes the Device Install Admin Wizard and the Device Discovery Wizard.

Xerox Web-based Services
CentreWare Web is a Windows 2000 server-based solution enabling the management of a fleet of Document Centres across a corporate intranet using standard browsers. CentreWare Web works in concert with CentreWare Internet Services, the HTTP server that is embedded in every Document Centre network controller. Through most browsers you can set up or change configuration options, as well as monitor device status and properties.

Network Operating System Native Tools
Xerox provides compatibility with administrative tools and environments available with the most popular network operating systems. Document Centres can be managed through both Microsoft Management Console and Novell Enterprise Print Service, eliminating the need to install and learn how to use a separate application.

Third-Party Applications
Xerox has also developed an array of snap-ins for widely used administrative applications provided by other vendors. If you have already invested in current software provided by Computer Associates, IBM, or HP, you can continue using those applications to manage Document Centres.

Management

Management Support	• SNMP Version 1 and SNMP Version 2c trap MIB access (IETF-MIB II RFC 1213, Host Resources MIB RFC 1514, Printer MIB RFC 1759)
CentreWare Administration Services	• Device Discovery Wizard • Device Administration Wizard • Font Management Utility
Novell NDPS/NEPS (gateway for Document Centre)	• Server gateway application: Centralized management tool provides streamlined installations via printer agents, automated printer driver installation and downloads, printer and job configuration, configurable event notification
Xerox PrinterMap (TCP/IP and NetWare IPX/SPX)	• Desktop application: Provides enterprise printer management with a proactive, single view topology map to manage multiple vendors' printers; view printers by attribute, model, or other administrator-defined group
Xerox CentreWare for Unicenter TNG	• Provides added identification to the general discovery performed by Unicenter TNG and the ability to see the Document Centre under a Unicenter TNG Business Process View. Provides full integration with event management and the choice to integrate with problem management and advanced Help Desk
Xerox CentreWare for Tivoli NetView	• Provides for the identification of Xerox N Series printers and Document Centre multifunction devices in the general discovery performed by Tivoli NetView. Also provides the ability to see the discovered Xerox printers/devices in a Xerox Printers SmartSet in addition to the Printers SmartSet. Finally, provides full integration with the NetView and Event Browser and Tivoli Enterprise Console (TEC)
Xerox CentreWare MC for Microsoft Management Console (MMC)	• CentreWare MC Snap-in supports printer discovery and management via a Microsoft Management Console (MMC) link to an embedded web server in NT and Windows 2000 environments. It is a general-purpose management display framework for hosting administrative tools
Xerox CentreWare for HP OpenView	• Provides for the identification of Xerox N Series printers and Document Centre multifunction devices in the general discovery performed by HP OpenView. Also provides the ability to see the current status of discovered Xerox printers/devices under a Xerox Printer Map and IP Map via color-coded icons. Finally, provides traps and message updates to the OpenView alarm browser and the ability to launch CentreWare for Internet Services for device management directly from OpenView
Xerox CentreWare Web	• A Windows 2000 server application for network administrators that permits web browser-based device management from any workstation, whether running Windows or UNIX or any other operating system. It provides help with device discovery and installations, health checks and troubleshooting, and device upgrades, as well as basic accounting and asset management. It includes device and queue views as well as preconfigured and customizable groups
Xerox Plug and Print 2000	• Plug and Print 2000 (PnP2000) is an administrative service program that simplifies enterprise-wide printer installs and relocations for Windows 2000 environments. The product discovers devices, automatically installs devices, enables sharing printers to users, and provides install reports—all through a user-friendly interface

ERP SAP R/3 Output Management Solutions

Xerox Device Types for SAP R/3 Environment	• Simplifies printing in SAP R/3 environments by providing users of SAP R/3 v4.6C, 4.x, and 3.x ERP applications with enhanced Document Centre printing functionality (Adobe PostScript and PCL):
	  - Simplex or duplex printing
	  - Finishing—single or dual stapling
	  - Tray Pull Location from six different trays
	  - Print security via PIN ID capability at the Document Centre

Xerox SAP R/3 Intelligent Barcode Utility	• Provides built-in process intelligence that allows the printing of barcodes on any appropriately configured Adobe PostScript printer on the SAP R/3 4.x (or higher) network. Used in conjunction with Xerox Device Types for SAP R/3 Environment and Xerox Font Center Barcode Fonts. Utility automatically calculates check sum, placement of start/stop characters, and encoding of data string

GENERAL SPECIFICATIONS

Paper Handling

Duplex Automatic Document Handler

Capacity* • 50 sheets
Speed • 40/32/25 images per minute (ipm) 8.5 x 11"/216 x 279mm long edge feed (LEF)

Paper Sizes Sensed
(North America) • Statement/5.5 x 8.5"/140 x 216mm LEF or short edge feed (SEF)
• Letter/8.5 x 11"/216 x 279mm LEF or SEF
• Legal/8.5 x 14"/216 x 356mm SEF
• Ledger/11 x 17"/279 x 432mm SEF
Weights • 16 to 32 lb./60 to 120gsm

Front-Loading Paper Trays

Number • Up to four
Capacity* • 500 sheets each
Sizes • Adjustable from statement/5.5 x 8.5"/140 x 216mm to ledger/11 x 17"/279 x 432mm (5.5 x 8.5"/140 x 216mm in Tray 1 only)
Weights • 16 to 24 lb./60 to 90gsm (Tray 2 capable of 28 lb./105gsm)
Types • Letterhead
• Preprinted forms
• Labels
• Transparencies
• Hole-punched
• Card stock
• Recycled paper

Envelope Tray (optional)

Capacity* • 70 envelopes at 24 lb./90gsm
Envelope Sizes • 6.5 x 3.9"/165 x 99mm to 10 x 7"/254 x 178mm
Envelope Weights • 16 to 24 lb./60 to 90gsm

Bypass Tray

Capacity* • 50 sheets
Paper Sizes • 4.13 x 5.83"/105 x 148mm to ledger/11 x 17"/279 x 432mm
Weights • 16 lb. bond to 110 lb. index/60 to 200gsm

High-Capacity Feeder (optional)

Capacity* • 2,000 sheets
Paper Size • Letter/8.5 x 11"/216 x 279mm LEF
Weights • 16 lb. bond to 110 lb. index/60 to 200gsm

Total Paper Capacity*
(with bypass and High-Capacity Feeder) • 4,050 sheets

Output

Offsetting Center Tray

Capacity* • 500 sheets
Sizes • 4 x 6"/102 x 152mm to 11 x 17"/279 x 432mm

Left Catch Tray

Capacity* • 200 sheets
Sizes • 4 x 6"/102 x 152mm to 11 x 17"/279 x 432mm

Finisher (optional)

Capacity* • 1,000 sheets
Sizes • 5.5 x 8.5"/140 x 216mm to 11 x 17"/279 x 432mm, in 16 lb. bond to 110 lb. index/60 to 200gsm weights
Staple Capacity* • 50-sheet staple capacity
Staple Paper Sizes • 8.5 x 11"/216 x 279mm to 11 x 17"/279 x 432mm (excluding 8.5 x 14"/216 x 356mm)

Convenience Stapler and Work Surface (optional)

Capacity* • Staples up to 50 sheets

Accounting

Accounting with Third-Party Server Applications (optional) • Up-to-the-minute data on how the Document Centre is being used; comprehensive usage tracking and reporting; print, scan, e-mail, copy, and fax
Electronic Auditron • Tracks copy and embedded fax use only; supports up to 2,000 user accounts (count and limit by service)
• Option to upload user account data via direct connected PC using Windows-based software

*Paper capacities are based on 20 lb./80gsm stock; capacities will vary with different weight stocks.

Paper Handling

Handles either one- or two-sided originals, automatically.

Throughput versatility of sizes, weights, and media types enables more applications and a more profitable bottom line.

Large paper capacity means fewer interruptions on long runs for greater productivity.

Empty paper trays may be reloaded while the machine is printing for maximum productivity.

Automatic tray switching prevents job interruption for reloading.

Settable tray properties (color, size, type).

The Power of Simplicity

Document Centre products have simple paper paths and a minimum of moving parts. There is very little that can go wrong. Most components that wear over time can be replaced in a snap by you without a service call. You're up and running again without delay.

One-piece customer replaceable toner unit, which contains all image-producing components, is a no-mess, time-saving feature that slides in cleanly and efficiently.

Responsible to the Environment

All Document Centre models are environmentally friendly. In support of Xerox's leadership goals, the models which appear in this brochure are either newly manufactured or remanufactured and contain both new and recycled components that are reconditioned. Document Centre products are designed to use recycled papers and conform to an array of global energy conservation standards. We are working with our customers to help preserve the planet.

Accounting (optional)

Manage machine usage with more detailed and accurate cost analysis capabilities. Compatible with third-party applications—Equitrac OfficeTrac, Control Systems Xtrak, and others.
