CLC900 PAGESTATION

Canon. Your first choice.

Whether you're looking for instant network colour printing, fast finished document creation or the means to meet your in-house colour output requirements, Canon Colour PageStations have the innovation to match your imagination.

CLC900 Key Benefits

High quality digital colour output for every workstation on your office network, through a single 'plug and print' unit.

Fully finished, sorted and stapled colour documents printed directly from Mac, PC or disk at 7 pages per minute.

Print on paper, card, OHP or film to the exact volume required, with sensitive colour and tone adjustment.

Easy to use, with high paper capacity for A3 and A4 output, automatic document circulation plus full editing and finishing features.

Backed by Canon's unrivalled reputation for office technology, product reliability and service support.

Want to link a digital colour solution to your computer network with instant, successful and reliable results? Then look no further than the Canon CLC900 Colour PageStation.

In one simple 'plug and print' unit you have a brilliant colour copier, a network colour printer and a finished document creator that links effortlessly to your network through its own built-in colour controller. Whether you need hundreds of high quality colour documents sooner or more network colour printing later, you couldn't pick a better partner for your output.

With its dedicated Canon chipset and software, this embedded controller is designed to drive the Canon CLC900 at a maximum network colour print speed of 7 A4 colour pages per minute.

DAZZLE THEM WITH BRILLIANT DOCUMENTS

Once upon a time colour mailshots, brochures, leaflets, posters and reports were highly unusual. Now you can produce them everyday with ease. Create images on your screen or scan them in and then run out your fully finished documents right away. Connect the CLC900 PageStation to your computer and you have a 7 page per minute, network ready colour printer.

IMPRESSIVE IMAGES THE EASY WAY

Create pin sharp images in millions of colours at 400 dpi. Use your CLC900 to run out polished professional documents on a range of stocks and materials enhanced by Canon's cutting edge colour management features, including special complexion adjustment for enhanced skin tone in photo images. For even greater flexibility of your final output, use the full range of editing and image manipulation features built-in to your PageStation.

Always ready and reliable designed with the operator in mind, the CLC900 offers high storage capacity and low maintenance. So you can concentrate on the business of producing colour literature that looks the business with speed, efficiency and simplicity. Even when the unexpected comes along, you can depend on Canon's unrivalled reputation for thorough service and systems software to keep your machines up and running, minimising downtime.

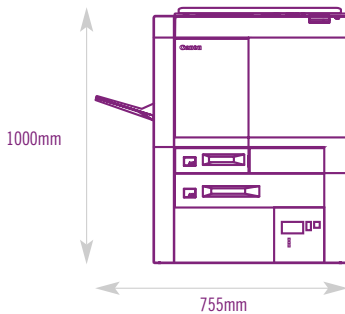

The popular choice for office colour Canon's range of colour PageStations are designed to fit in seamlessly with today's hi-tech, high speed office environment. Small wonder that more people choose Canon than any other solutions provider for short run digital print. If you want the best in colour, there's simply no other option.

bring colour to life for everyone in the office

From the first name in colour print and copy technology, the Canon CLC900 PageStation is ideal for the document creation needs of today's highly advanced office environment. It's fast, it's high quality, you don't need a degree to use it and it puts colour at the fingertips of everyone on your network.
