total office workflow
effortlessly

True Workgroup solutions

The new iR5000i intelligent digital system enables workgroups to collect, share and manage documents, enhancing workflow as never before. Unlike disparate devices, it cohesively combines print, scan, copy and communication functions, to deliver an integrated networked document distribution system. Increasing productivity and efficiency for everyone on the network.

Intelligent communication

Intelligent send and receive functions revolutionize the way documents are distributed, cutting costs and increasing productivity. Documents can be sent to multiple destinations in a single operation - or distributed digitally to a file server, specific database or e-mail address. Conversely, the system can receive and route all incoming information so that it can be captured, shared and worked on by any authorized users on the network. In short, you'll enable your workgroups to communicate, manage and share information more efficiently, more flexibly and faster than ever before.
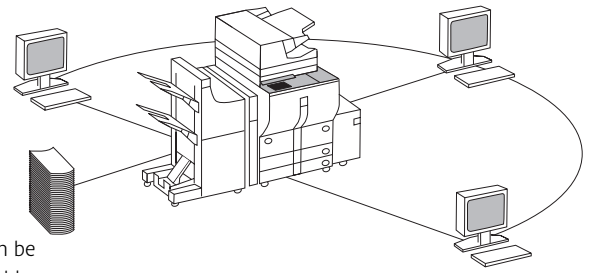

Intelligent copy

Efficient remote and tandem copying facilities offer organizations a host of efficiency and productivity benefits. With tandem copying, users can select other iRi devices on the network, distributing the workload over multiple devices - as well as sharing advanced finishing accessories not available on local machines.

Seamless integration and ease

Integrating scanned originals into your office workflow, Windows or Netware network environment is truly seamless. While a full size, full colour touch screen makes even the most complex operations easy. This simplicity is extended to every network user via the remote user interface and, with its built-in web browser function and mailbox facility, jobs can be managed and controlled direct from every network PC. You can even take advantage of Canon's smart solutions that provide powerful applications for workflow, print management and full document accounting. Protecting your investment as your business needs change.

iR5000i Specifications

Base Specification

Type: Console (Reader-Printer separated type)

Functions: Print, Copy, iSend, iReceive

Speed: 50 ppm A4

Paper Handling: A6-A3 (Stack Bypass)

Duplexing: Automatic Trayless. Duplex ADF.

Paper Supply: 2x Front Loading Tray (1500 shts), 2x Paper Cassettes (550 shts), Bypass (50 shts)

Power Supply: 230V, 50/60Hz

Dimensions: (H x W x D) 1,152.6 x 643 x 743 mm

Weight: 210 Kg

Communication Interface

Topology: Ethernet, Token Ring (Optional)

Speed: 10/100Mbps Ethernet

Protocols Supported: TCP/IP, IPX/SPX™, EtherTalk, SMB for printing

iSend Function

Sending Methods: E-mail, iW Document Manager to Database (Salutation), File Server (FTP, SMB, NCP)

Address Book Capacity: Maximum 1,800

File Format: Single Page TIFF, Multi Page TIFF, PDF

Sending Sizes: A5-A3

Sending Resolution: 100 x 100 dpi, 200 x 100 dpi, 200 x 200 dpi, 300 x 300 dpi, 200 x 400 dpi, 400 x 400 dpi, 600 x 600 dpi

Multi PDL Network Printing

Speed: 50 ppm A4

Resolution: Up to 2,400 x 600 dpi

PDL Support: PCL5e / PCL6 / Postscript 3 emulation

Fonts PS: 136 Scalable fonts, PCL: 80 Scalable fonts, 30 Barcode fonts, 2 OCR fonts, 9 Bitmap fonts

Processor: Canon Custom

Image Server Memory: 10GB Hard Disk, 192MB RAM (Storage up to 1000 documents)

Network OS: Novell Netware v3.2, 4.1, 4.11, 4.2, 5
Windows 95/98/NT/2000/XP
Solaris 1.x, 2.25 or later
Apple System 7.6 or higher

Optional Accessories: Finisher-F1
Saddle Finisher-F2
Punching Unit-A1/B1/C1/D1
Paper Deck-G1
DADF-D1
Image Reader-A1
Shift Tray-B1
Card Reader-C1
